## ICC Evaluation Service's Plumbing, Mechanical and Fuel Gas Program Sets All-time Record Growth in 2018

*ICC-ES PMG Listing Program continues to build recognition for customer service and expedited listings*

**BREA, CALIF.** — The ICC Evaluation Service PMG Listing Program (ICC-ES PMG) has achieved an all-time record growth for the first two months of 2018. The growth is attributed to more manufacturers choosing ICC-ES PMG in recognition of their high level customer care, full acceptance of the mark of conformity in North America, competitive pricing and expedited evaluation and timely turnaround of plumbing, mechanical and fuel gas listings.

“Since its beginnings, the ICC-ES PMG Listing Program has experienced several years of exponential growth, by remaining flexible in a fast-moving competitive industry.” said ICC-ES President, Shahin Moinian, P.E. “The only way to ensure consistent growth is to provide the highest level of customer service to our clients.”

ICC-ES PMG is currently offering a new incentive program to manufacturers who transfer their current plumbing product listings from other service providers. [Click here](#) to view the latest offer.

ICC-ES PMG is a subsidiary of the International Code Council (ICC,) a member-focused organization that publishes the I-Codes. ICC has more than 64,000 members of which 14,000 are building and plumbing officials that look for the ICC-ES PMG Mark of Conformity.

If you're not familiar with ICC-ES PMG Listings, please [click here](#) or call ICC-ES PMG at 1- 800-423-6587 ext. 3772.

### About ICC-ES

A nonprofit, limited liability company, ICC-ES is the United States' leading evaluation service for innovative building materials, components and systems. ICC-ES [Evaluation Reports](#) (ESRs), [Building Product Listings](#) and [PMG Listings](#) provide evidence that products and systems meet requirements of codes and technical standards. The ICC-ES Environmental Programs issue VAR environmental reports that verify a product meets specific sustainability targets defined by today's codes, standards, green rating systems and ICC-ES [environmental criteria](#). The Environmental Programs now offer Environmental Product Declarations ([EPDs](#)), to meet global market demand for science-based, transparent, quality-assured information about a product's environmental performance. ICC-ES is a member of the [ICC](#) Family of Companies. For more information, please visit [www.icc-es.org](http://www.icc-es.org).
