NIBCO Earns ICC-ES PMG Listing for its Press System

ICC Evaluation Service (ICC-ES) has issued [PMG-1098](#) to NIBCO for its Press System. This ICC-ES PMG Listing allows code officials to quickly determine the press system's compliance to specific codes and standards. The press copper and copper alloy fittings are used in service and distribution piping for hot and cold domestic water, potable drinking and cooking water, condenser and chilled water, and hot water heating.

“With this listing, NIBCO shows their products' compliance to numerous industry-recognized codes and standards,” said ICC-ES PMG Senior Program Manager, [Dawn La Fleur-Qualley](#). “We are pleased [NIBCO](#) chose ICC-ES [PMG](#) for their product certification needs.”

[ICC-ES](#) evaluated NIBCO's press system to the requirements of the 2012, 2009 and 2006 [International Residential Code](#)[®] (IRC), [International Plumbing Code](#)[®] (IPC), [International Mechanical Code](#)[®] (IMC), IAPMO's UPC[®] and IMC[®]. The products evaluated also meet the requirements of NSF/ANSI 61, Drinking Water Systems Components—Health Effects and NSF/ANSI 372, Drinking Water Systems Components—Lead Content.

“Obtaining the ICC-ES PMG Listing for our Press System has been a high priority for NIBCO Inc.,” said Manager of Standards and Codes for NIBCO, Andrew Granzow. “We were very pleased to work with ICC-ES PMG to complete the listing in an efficient and timely manner. We are confident this listing will assist in the clarification of code compliance to code officials, engineers and others.”

The ICC-ES PMG Listing Program has wide acceptance and offers significant savings, including not requiring warehouse inspections or fees for additional company listings. When applying for an ICC-ES PMG listing, ICC-ES can also certify products to AB1953, NSF/ANSI Standard 372, S.3874, a federal law for Reduction of Lead in Drinking Water, and the requirements of WaterSense **free** of charge as an added value. For more information, please contact ICC-ES at 1-800-423-6587, ext. 7643, or by e-mail at espmg@icc-es.org.

About ICC-ES

A nonprofit, limited liability company, ICC-ES is the United States' leading evaluation service for innovative building materials, components and systems. ICC-ES [Evaluation Reports](#) (ESRs), [Building Product Listings](#) and [PMG Listings](#) provide evidence that products and systems meet requirements of codes and technical standards. The ICC-ES Environmental Programs issue VAR environmental reports that verify a product meets specific sustainability targets defined by today's codes, standards, green rating systems and ICC-ES [environmental criteria](#). The Environmental Programs now offer Environmental Product Declarations ([EPDs](#)), to meet global

market demand for science-based, transparent, quality-assured information about a product's environmental performance. ICC-ES is a subsidiary of the [International Code Council](https://www.icccouncil.org/)[®] (ICC[®]). For more information, please visit www.icc-es.org.
