

ICC Evaluation Service, LLC Fee Schedule

Effective May 29, 2025

NOTE: ICC-ES application and renewal fees are nonrefundable.

TABLE 1A—APPLICATIONS FOR NEW REPORTS^{1,2,3,18}

BASIC FEE	EACH INDIVIDUAL ITEM COVERED IN THE REPORT ⁴			EACH PRIVATE LABEL LISTEE ⁶	EACH NAMED LISTEE BEYOND THE REPORT HOLDER ⁵	EACH PAGE AFTER THE FIRST ⁷	EACH ADDITIONAL CODE FAMILY ⁸	EACH ADDITIONAL CODE WITHIN A CODE FAMILY ⁹	SUPPLEMENT(S)	QUALITY DOCUMENTATION REVIEW, AND INSPECTION ^{**}	SIGNIFICANT TECHNICAL REVIEW
	High-Complexity Item	Medium-Complexity Item	Low-Complexity Item								
\$9,950*	\$4,335	\$2,890	\$1,995	\$980	\$2,950	\$1,020	\$1,740	\$690	See Table 7	\$2,845	\$2,030

Applications for new reports must be accompanied by the basic fee and one copy of supporting documentation; the applicant will be notified of the total fee and the amount outstanding, if any, at the time the report is completed.

*For new private label reports the total is \$7,945.¹³ For new language-translated reports, see Table 14.

**Inspection fees, which are charged for each manufacturing location, will be billed separately, when quality documentation is received. If no review and 0 inspection is required, but the associated fee has been paid, the \$2,845 fee will be credited to the account at the end of the evaluation process.

*The phrase "DSA & OSHPD (HCAI)" is to signify evaluation under the requirements in the California Building Code for the Division of the State Architect (DSA) and California's Office of Statewide Health Planning and Development (OSHPD (HCAI))

**The phrase "HVHZ" is to signify evaluation under the High Velocity Hurricane Zone (HVHZ) requirements of the Florida Building Code.

***Additional evaluation under the California Building Code and California Residential Code provisions for "Fire Hazard Severity Zone with State Responsibility Areas or any Wildland-Urban Interface Fire Area" that require testing, will be billed an additional code family fee (Table 4). For evaluation under these code provisions that do not require testing, an additional code within a family fee (Table 4) will apply.^{26,27}

**TABLE 8—FEES FOR QUALITY DOCUMENTATION REVIEW AND FOR
QUALIFYING INSPECTIONS^{1,2}**

ACTIVITY	FEE
Review of new documentation	\$1,195
Review of new documentation, plus an inspection	\$2,845
Inspection based upon previously reviewed documentation	\$2,845

TABLE 9—FEES FOR REVIEW OF INSPECTION SUMMARY FORMS

FOR A ONE-YEAR RENEWAL	FOR A TWO-YEAR RENEWAL
\$1,395	\$2,245
\$430 for each non-producing location	\$675 for each non-producing location

Notes:

1. The review fee is applicable to each Inspection Summary Form submitted. A separate form is needed for each manufacturing location although ICC-ES will bill for no more than five for any individual evaluation report.
2. If a particular product is recognized in more than one report held by the same report holder, but manufactured at only one location, the report holder will be billed only once for review of an Inspection Summary Form related to that product and location.
3. Non-producing locations are still subject to one inspection per year, and the results of this inspection are subject to review at the reduced rate shown in the table.

TABLE 10—FEES FOR SURVEILLANCE INSPECTIONS

TYPE OF INSPECTION	FEE
Inspection by an ICC-ES representative in the U.S. or Canada	\$2,845
Inspection by an ICC-ES representative outside the U.S. and Canada, excluding the Middle East and Oceania	\$3,345
Inspection by an ICC-ES representative in the Middle East or Oceania	\$4,345
Witness testing ¹	\$250 per hour
Inspections of manufacturing locations which produce products under multiple reports that share the same quality documentation, including follower and private label reports. ²	\$645 per evaluation report
Quality Control Self-Assessment Review	\$395

Notes:

1. This hourly rate applies when witness testing is conducted as part of the inspection of a manufacturing facility.
2. In the case of reports featuring private label listees, this fee will be charged for each such listee, and the result multiplied by the number of inspected manufacturing facilities. For follower reports that don't involve private label listees, the fee is charged for the follower and multiplied by the number of manufacturing locations.

TABLE 11—REPORT TRANSLATION

INITIAL REPORT ISSUANCE	\$3,000
TECHNICAL REVISION	\$3,000
EDITORIAL REVISION	\$1,500

NOTES TO TABLES 1–8, AND 13:

1. Travel expenses for qualifying inspections are to be paid by the report applicant. If a qualifying inspection is necessary and the manufacturing facility is located within the U.S. or Canada, travel expenses will be billed at \$750 per facility. If the manufacturing facility is located outside the U.S. or Canada, travel expenses will be billed at \$1,950 per facility.
2. When applicable, the inspector's travel time for non-domestic inspections will be billed at \$693 for each 8-hour day in excess of one 8-hour day, noted in Footnote 1.
3. For applications where supporting data includes test reports from non-accredited laboratories, an on-site assessment of the facilities of each such laboratory may be conducted as set forth in the ICC-ES Rules of Procedure for Evaluation Reports. An assessment fee of \$1,005 per assessor day, plus expenses, is applicable. Assessor travel time is billed at the rate of \$600 per 8-hour day. Travel expenses are billed at cost. Typically, an on-site laboratory assessment takes one assessor day.
4. The number of billable "items" is determined by the processing technical staff. Items for billing may include each model, series, assembly, property, method, performance characteristic, etc., that requires separate evaluation as to code compliance.
5. A manufacturer listee is a company name appearing on an existing evaluation report that is in addition to the report holder's name, and manufactures the product under the evaluation report.
6. A private label listee is a company name appearing on an existing evaluation report that does no manufacturing under the evaluation report, but merely takes the manufactured product and sells it under its own private label.
7. Applicant-supplied plans may be included as an attachment to the published ICC-ES evaluation report, and are charged at \$210 per page. The plans may include building plans and the manufacturer's published, dated product literature in electronic format, but should not include tables and figures that provide needed information to the code official and that are critical to proper understanding of the evaluation report. Evaluation reports with attached plans are designated by the suffix "P" after the report number, as in ESR-9999P.

8. When the report includes the International Codes, the additional code families are legacy codes, such as Standard Codes, the BOCA National Codes, and the Uniform Codes.
9. An example of the additional code(s) within a family would be an evaluation report covering both the *International Building Code*® and the *International Residential Code*®, within the International family of codes listed on the report. The *International Residential Code*® would be considered the additional code within a family.
10. The only revisions allowed to legacy reports are editorial or administrative revisions.
11. Charges for new items, pages, codes, etc., apply only to changes resulting from the revision, and not anything existing in the current, published report.
12. This fee is charged when technical review entails more than eight engineering hours.
13. Private label reports are evaluation or listing reports issued to distributors of products covered in a separate existing report. An agreement is required between the existing report holder and the new applicant for a private label report.
14. Without an application form, minor editorial corrections to text, tables or figures of a published evaluation report can be processed with a written request from the report holder and a processing fee of \$1,045. Also, minor editorial revisions to the report file can be considered without an application form or processing fee, such as: (a) change in office address; (b) move of manufacturing location without significant changes; and (c) removal of manufacturing locations.
15. Minor editorial revisions to a published evaluation report can be processed with an application from the report holder and a processing fee of \$1,045, such as: (a) removal of a supplement report, (b) removal of an additional listee or private label listee or (c) removal of legacy codes or older code versions.
16. The fees in Table 4 apply when a legacy report is converted to a new ICC-ES report.
17. If renewal fees are not received by the expiration date of a report, a \$1,500 reinstatement fee will apply for the processing of a late renewal.
18. If a project becomes inactive for 2 years or more, a \$1,500 annual fee will be assessed.
19. In conjunction with the report's renewal, the following minor editorial revisions to a published evaluation report can be processed for a \$1,045 fee: (a) Change in phone number, website address or office address on the evaluation report; (b) Removal of a product, additional company listee or private label listee from the report; (c) Removal of legacy codes from the report or (3) removal of a supplement.
20. The number of pages in the Supplement(s) are considered in the overall page count for renewal fees.
21. When applying to *only* add a supplement to an existing report, only the supplement fees apply per Table 7A.
22. The Florida Building Code and Residential Code without HVHZ are billed as one additional code within a family at renewal.
23. The Florida Building Code and Residential Code with HVHZ are billed as one additional code and one additional code within a family at renewal.
24. The California Building Code and Residential Code Supplement without DSA and OSHPD (HCAI) are billed as one additional code within a family at renewal.
25. The California Building Code and Residential Code Supplement with DSA and OSHPD (HCAI) are billed as one additional code family and one additional code within a family at renewal. CBC Chapter 7A or CRC Section R337 will be billed as an additional code within a family at renewal.
26. In addition to Footnote 24 and 25, if the California Building Code and Residential Code includes provisions for "Fire Hazard Severity Zone with State Responsibility Areas or any Wildland-Urban Interface Fire Area" that required testing at the first issuance, one additional code family will be billed at renewal.
27. In addition to Footnote 24 and 25, if the California Building Code and Residential Code that includes provisions for "Fire Hazard Severity Zone with State Responsibility Areas or any Wildland-Urban Interface Fire Area" that did not require testing at the first issuance, one additional code within a family will be billed at renewal.
28. The page range listed under each volume is only applicable to reports that have been converted to the enhanced format. If they are not yet converted, then the previously listed page range would apply.
