The International Code Council and ICC-ES to be Featured on ‘Viewpoint with Dennis Quaid’

Special episode will focus on the processes that go into building evaluations for code compliance

Brea, CA – The International Code Council (ICC) and its subsidiary, ICC Evaluation Service (ICC-ES), will be featured in an upcoming episode of *Viewpoint with Dennis Quaid*, which highlights the importance of evaluating building products for safety and peace of mind. The television show provides education that informs viewers on the latest topics and trends impacting the world.

In the episode, Code Council experts discuss construction regulation, code approvals, and innovation in building products - highlighting how building safety is everyone's responsibility and what connects us all.

Viewpoint's creative team interviewed Dominic Sims, CBO, Chief Executive Officer of the International Code Council, David Tompos, Executive Vice President of ICC-ES, Anna Mullen, Vice President of Marketing at ICC-ES, and J.R. Ubejd Mujagic, Chief Revenue Officer at Scottsdale Construction Systems (pictured below, left to right).

ICC-ES will be featured on Viewpoint with Dennis Quaid, enforcing the message that code compliance helps save lives.

"The episode shines a much-needed light on code compliance and modern building codes, and how they affect everyone," Mullen says. "Building product evaluation is an extremely rigorous and important part of the safety processes we count on to ensure safe homes and buildings. We are thrilled to be sharing these insights with the general public so that they, too, can see that code compliance helps save lives."

[Scottsdale Construction Systems](#) has been providing world-leading solutions for the manufacture of steel frames and trusses for both the residential and commercial construction markets since its inception in 1995. A global company based in Australia and New Zealand, Scottsdale has partnered with ICC-ES as a conformity assessment provider to bring their innovative steel framing solutions to market.

"As an extensive consumer of code approval and product evaluation services, we continue to rely heavily on our valuable partnership with ICC-ES across various

global markets we operate in," said Mujagic. "We are pleased to have participated in this program alongside the International Code Council, and we're thankful to have had the opportunity to share our experience and perspectives with the public."

The public television segment will be distributed starting September 9, 2024 under the title "Evaluating Building Products for Safety & Peace of Mind" to over 170+ participating public television stations throughout the U.S.
