ICC-ES PMG India Program Continues to See Significant Growth

Largest directory of listed plumbing products with UIPC-I reference now belongs to ICC-ES

Brea, CA – ICC-ES PMG, the premier product certification program, certifying Plumbing, Mechanical and Fuel Gas products to the requirements of International, Uniform and Canadian Codes and Standards, is excited to announce it currently has the largest directory of listed plumbing products with compliance to the Uniform Illustrated Plumbing Code-India (UIPC-I).

ICC-ES PMG Listings have grown significantly in the India area and continue to do so as plumbing product manufacturers looking to distribute in India take advantage of cost-effective and efficient PMG listings that verify compliance to the UIPC-I. This value-added service is easily added to any listing at the time of publishing and allows manufacturers to expand into the growing plumbing products market in India.

"As we continue to offer additional services and offerings, we are excited to see the continuing interest and growth of our India program," says Dawn La-Fleur Qualley, Vice President, ICC-ES PMG.

From testing to inspection to certification, ICC-ES PMG provides code compliance for a wide range of products, including plumbing fittings, fixtures, pool products, water quality and irrigation products. ICC-ES PMG is accredited by ANSI National Accreditation Board (ANAB), the Standards Council of Canada (SCC), and most recently the Joint Accreditation System of Australia and New Zealand (JAS-ANZ), and can offer listings to meet all manufacturer certification needs in the United States, Canada, Mexico, Australia and New Zealand.
