Findings: The assembly described in the Assembly Section, with the FlameOff Fire Barrier Paint as a component of the assembly, is a 1-hour fire-resistance-rated interior structural steel column assembly, based on testing in accordance with UL 263/ASTM E119, as referenced in the applicable sections of the following code editions:

- 2015 and 2012 International Building Code®
  Applicable Sections: 703.2, 704.2 and 722.5.1.3.

Identification:

1. Containers of the intumescent material are identified with the company name (FlameOff Coatings, Inc.) and address, product name (FlameOff Fire Barrier Paint), storage and shelf-life information, the ICC-ES listing report number (ESL-1117), and when applicable, the ICC-ES listing mark.

2. The report holder's contact information is the following:

   FLAMEOFF COATINGS, INC.
   1100 NAVAHO DRIVE, SUITE 110
   RALEIGH, NORTH CAROLINA 27609
   www.flameoffcoatings.com

Installation: The FlameOff Fire Barrier Paint must be installed in accordance with the FlameOff Coatings, Inc.'s published installation instructions and applicable codes.

Conditions of Listing:

1. The listing report addresses only conformance with the standards and code sections noted above.

2. Approval of the product's use is the sole responsibility of the local code official.

3. The listing report applies only to the materials tested and as submitted for review by ICC-ES.

4. The Assembly Section describes the assembly using FlameOff Fire Barrier Paint that is qualified for use in an interior structural steel column fire-resistance-rated assembly.

5. FlameOff Fire Barrier Paint is manufactured in Raleigh, North Carolina under a quality control program with inspections by ICC-ES.
