**CSI:**
DIVISION: 07 00 00—THERMAL AND MOISTURE PROTECTION
Section: 07 81 00—Applied Fireproofing

**Product Certification System:**
The ICC-ES product-certification system includes evaluating reports of tests of standard manufactured product, prepared by accredited testing laboratories and provided by the listee, to verify compliance with applicable codes and standards. The system also involves factory inspections, and assessment and surveillance of the listee’s quality system.

**Product:**
FLAMEOFF FIRE BARRIER PAINT

**Listee:**
FLAMEOFF COATINGS, INC.

**Evaluation:**
FlameOff Fire Barrier Paint is a water-based intumescent coating and was evaluated based on a tested interior structural steel column assembly consisting of building-material components described in the Assembly Section, tested in accordance with the following standards:

- UL 263-11 (with revisions through June 2015), UL 263-11 and UL 263-03 (with revisions through October 2007), Standard for Fire Tests of Building Construction and Materials, Underwriters Laboratories, Inc.

**Assembly:**

1. **Steel Column** – Minimum square or rectangular hollow structural section (HSS) column size HSS6x6x½ or minimum round HSS column size HSS6.00x½ with A/P = 0.435 (For SI: minimum HSS152x152x13 or minimum HSS152x13 with M/D >= 91.9). The column shall be free of dirt, loose scale and oil before application of coatings. Column shall be primed with metal alkyd primer.

2. **FlameOff Fire Barrier Paint** – Applied in accordance with manufacturer’s instructions to the minimum dry film thickness including primer of 0.076-inch (1.93 mm).

3. **Primer** (Not Shown) – Alkyd Metal Primer applied at a minimum 0.0026-inch (0.066 mm) dry film thickness prior to application of intumescent coating.
Findings: The assembly described in the Assembly Section, with the FlameOff Fire Barrier Paint as a component of the assembly, is a 1-hour fire-resistance-rated interior structural steel column assembly, based on testing in accordance with UL 263/ASTM E119, as referenced in the applicable sections of the following code editions:

  Applicable Sections: 703.2 and 704.2 and 722.5.1.3

Identification:

1. Containers of the intumescent material bear the company name (FlameOff Coatings, Inc.) and address, product name (FlameOff Fire Barrier Paint), storage and shelf-life information, the ICC-ES listing report number (ESL-1157), and when applicable, the ICC-ES listing mark.

2. The report holder’s contact information is the following:

   FLAMEOFF COATINGS, INC.
   1110 NAVAHO DRIVE, SUITE 110
   RALEIGH, NORTH CAROLINA 27609
   (770) 241-8145
   www.flameoffcoatings.com

Installation: The FlameOff Fire Barrier Paint shall be installed in accordance with the FlameOff Coatings, Inc.’s published installation instructions and applicable codes.

Conditions of Listing:

1. The listing report addresses only conformance with the standards and code sections noted above.

2. Approval of the product’s use is the sole responsibility of the local code official.

3. The listing report applies only to the materials tested and as submitted for review by ICC-ES.

4. The Assembly Section describes the assembly using FlameOff Fire Barrier Paint that is qualified for use in an interior structural steel column fire-resistance-rated assembly.

5. The FlameOff Fire Barrier Paint described in this listing report is produced under a quality control program with inspections by ICC-ES.
