**Compliance with the following standards:**

ANSI/APSP/ICC 4-2012 (R2022), Standard for Aboveground / Onground Residential Swimming Pools

**Identification:**

A permanent label must be attached to pool indicating the manufacturer's name, distributor's name, address and telephone number and the ICC-ES PMG listing mark.

**Installation:**

The pools must be installed on a leveled surface in accordance with the manufacturer's published installation instructions. All plumbing and electrical installations must comply with the applicable codes in effect at the construction site.

Installers shall follow written instructions regarding positioning of all equipment connected to the circulation systems and these components shall be positioned so as to prevent them as being used as a means of access to the pool by young children.

There shall be no protrusions or other obstruction in the swimming area that may cause entrapment or entanglement of the user.

The ladder shall be properly assembled and shall be located on a solid base in accordance with the manufacturer's instructions. The installer shall follow regulations on setback, barriers, devices, and other conditions.

Prior to use of the pool, the installer shall affix all no diving signs and safety signs in accordance with the manufacturer's instructions so they can be easily visible.

Models:

The CARVIN Diamond / Gold / Platinum / Silver Series steel or aluminum wall above ground pools have a wall height of 52 or 54 inches aboveground and have a maximum water depth of 48 inches. Corrugated pool walls are available in a variety of exterior finishes colors.

**Notice:** The aboveground models are designed to be placed on a leveled surface and shall never be installed below the ground.
