Identification:

Each supply fitting shall be marked with the manufacturer's name or registered trademark or, in the case of private labelling, the name of the customer for whom the fixture was manufactured and the ICC-ES PMG listing mark so as to be visible after installation.

Kitchen, lavatory, and metering faucets shall be marked with the manufacturer's specified maximum flow rate, in L/min and gpm or L/cycle and gpc.

Showerheads and hand-held showers shall be marked with the manufacturer's specified maximum flow rate, in L/min and gpm.

Markings shall be accomplished by use of a permanent mark or by placing a permanent label on the product. Markings shall be located in such a way that they are visible after installation.

Installation:

Fixtures are to be installed in accordance with the manufacturer's installation instructions and the applicable code. Flange kits for installation in the field shall include installation instructions.
